RESEARCH

The Well-Total Domination of K3-Free, Induced-P5-Free Graphs

Proof

- Solved 19-year open problem by proving well-total domination of K3-free, induced-P5-free graphs.

The Approximation Ratio of Byte-Pair Encoding

Proof

- Solved fundamental open NLP problem by deriving approximation ratio of byte-pair encoding.

EDUCATION

Singapore University of Technology and Design
Computer Science

Singapore
Sep 2022 – May 2026

EMPLOYMENT

Research Assistant
Singapore University of Technology and Design

Sep 2026 – Sep 2027
Singapore

AI Engineer Intern
Creatz3D

May 2025 – Sep 2025
Singapore

PROJECTS

SUTDoko

App

- Built typo-resistant SUTD room look-up with decoding-constrained transformer.
- Outperformed accuracy of official SUTD Assistive Maps bot by 100% on subset of test set.

PROFICIENCIES

- **Languages.** C, CSS, HTML, JavaScript, Python, Shell, TeX, and more.
- **Tools.** Git, LangChain, NumPy, n8n, PyTorch, pandas, and more.

RECOGNITION

- MLOps Project Feature, Singapore University of Technology and Design, 2026.
- Deep Learning Project Feature, Singapore University of Technology and Design, 2025.
- Information Systems Prize, Singapore University of Technology and Design & Singtel, 2024.
- Honours List, Singapore University of Technology and Design, 2023.
- Mathematics and Science Book Prize, Temasek Secondary School, 2017.
- Physical World Design 1D Award, Singapore University of Technology and Design, 2022.
- Malay (Special Programme) Top in Cohort Award, Temasek Secondary School, 2016–2018.
